Courtesy of Mr. Ivlorpheus, we now have a new Battlefield: Bad Company 2 Server!

Server details here:

IP is 81.19.213.44:19567

32-Man Server, based on a brand new server box in London, UK (Tier 1, for those who want to know : ) ). Currently running in Rush, but that can always be changed if the public demands something else.

Be sure to try it out!
